SATURDAY, JUNE 8, 2019

7:00 AM – 11:00 AM  
Council Meeting (*invitation only*)
Elizabeth J. Kovacs, PhD, Shock Society President
University of Colorado Denver, Aurora, CO
*Sovereign*

8:00 AM – 6:00 PM  
Speaker Ready Room
*Boardroom*

10:00 AM – 6:30 PM  
Registration
*Commodore Atrium*

11:00 AM – 12:30 PM  
Shock Editorial Board Meeting (*invitation only*)
*Constellation B*

11:45 AM – 1:00 PM  
Luncheon Symposium III AKPA
(*Industry-sponsored; not part of scientific program*)
*Commodore E*

1:00 PM – 2:00 PM  
William A. Altemeier Memorial Lecture
*Commodore ABCD*

Critical Care Research in the Age of Electronic Medical Records
Gordon R. Bernard, MD, Executive Vice President for Research and Chief Research Officer, Vanderbilt University Medical Center, Nashville, TN

2:00 PM – 3:15 PM  
**TRANSLATIONAL SYMPOSIUM**

Translational Update 2019
Moderators:
Tina Palmieri, MD, University of California, Davis, Sacramento, CA
Philip Efron, MD, University of Florida, Gainesville, FL
*Commodore ABCD*

The Challenges of Undertaking Basic Science Research in Under-Developed Countries
Jared Forrester, MD, Stanford University, Stanford, CA

Advancing Technologies in the Diagnosis of Sepsis
Elizabeth Fox, MD, Medical College of Georgia, Augusta, GA

Burns: From Bench to Bedside and Back Again
Tina Palmieri, MD, University of California, Davis, Sacramento, CA

Chronic Critical Illness as the New Sepsis Paradigm
Philip Efron, MD, University of Florida, Gainesville, FL

3:15 PM – 3:30 PM  
Break
**DEBATE #1: Opt-In, Opt-Out**
Speaker: Addison May, MD, MBA, Atrium Health (3:30 PM – 3:38 PM)

Speaker: Greg Beilman, MD, University of Minnesota (3:38 PM – 3:44 PM)

Discussion: 3:44 PM – 3:50 PM

**DEBATE #2: Who Pays for It?**
Pro: Patients Randomized to Surgery vs. Non-Operative Intervention Should Pay the Costs of Their Treatment Arm, Whichever It May Be.
Speaker: Fred Pieracci, MD, MPH/MSPH, Denver Health Medical Center/University of Colorado Denver (3:50 PM – 3:58 PM)

Con: Patients Randomized to Surgery vs. Non-Operative Intervention Should Not Have to Pay the Costs of Their Treatment Arm, Whichever It May Be.
Speaker: Vanessa Ho, MD, MetroHealth (3:58 PM – 4:06 PM)

Discussion: 4:06 PM – 4:12 PM

**DEBATE #3: Open Access Journals**
Pro: We Should Embrace Open Access Journals as the Future of Scientific Publishing.
Speaker: Donald Fry, MD, Emeritus (4:12 PM – 4:20 PM)

Con: Open Access Journals Are Predatory and Dilute the Quality of Scientific Reporting.
Speaker: Phil Barie, MD, MBA, Weill Medical College of Cornell University (4:20 PM – 4:28 PM)

Discussion: 4:28 PM – 4:34 PM

**DEBATE #4: Show Me the $$$**
Pro: The Majority of Funding Should Go to Basic Science Research.
Speaker: Jared Huston, MD, Zucker School of Medicine at Hofstra/Northwell (4:34 PM – 4:42 PM)

Con: The Majority of Funding Should Go to Clinical Research.
Speaker: Jeff Shupp, MD, The Burn Center, MedStar Washington Hospital Center/Georgetown (4:42 PM – 4:50 PM)

Discussion: 4:50 PM – 4:56 PM

**PRESIDENTIAL ADDRESS – Resilience to Succeed When You Fail**
Marc Jeschke, MD, PhD, Sunnybrook Research Institute, Toronto, Canada

**MENTORING AND DIVERSITY PROGRAM**
Session Chair: Elizabeth J. Kovacs, PhD, University of Colorado Denver, Aurora, CO

**What Is a Successful NIH Grant Application? Thoughts on How to Get from Here to There**
Scott D. Somers, PhD, National Institute of General Medical Sciences, NIH, Bethesda, MD
### 8:00 PM – 9:00 PM
Session Chair: Melanie Scott, MD, PhD, University of Pittsburgh, Pittsburgh, PA

**Mentoring in the #MeToo Movement**  
Diana Lautenberger, M.A.T., Director, Women in Medicine and Science, Association of American Medical Colleges (AAMC), Washington, DC

**Panel Discussion**  
Diana Lautenberger, M.A.T, AAMC, Washington, D.C.  
Frederick Moore, MD, University of Florida, Gainesville, FL  
Alfred Ayala, PhD, Rhode Island Hospital, Providence, RI  
Clifford Deutschman, MD, Zucker School of Medicine at Hofstra/Northwell, New Hyde Park, NY

### 7:00 PM – 9:00 PM
**SIS Awards Banquet**  
*Commodore E*  
Ticket may be purchased if not registered for SIS

### SUNDAY, JUNE 9, 2019

#### 7:00 AM – 5:00 PM
**Speaker Ready Room**  
*Boardroom*

#### 7:00 AM – 7:30 PM
**Registration**  
*Commodore Foyer*

#### 7:00 AM – 9:00 AM
**CONTINENTAL BREAKFAST & POSTER SESSION I (P1 – P44 & P46 – P89, P224, P277)**  
*Constellation AB & Avalon*

#### 9:00 AM – 11:00 AM
**PLENARY SESSION I: Sepsis: Definitions, Models and Opportunities**  
Co-Chairs: Clifford Deutschman, MD, Zucker School of Medicine at Hofstra/Northwell, New Hyde Park, NY  
Heather Evans, MD, Medical University of South Carolina, Charleston, SC  
*Comodore ABCD*

#### 9:00 AM – 9:05 AM
**In Memory of Basil Pruitt, Jr., MD, FACS, FCCM, MCCM**  
Tina Palmieri, MD, University of California, Davis, Sacramento, CA

#### 9:05 AM – 9:25 AM
**Refining Animal Models of Sepsis** *(Abstract 5)*  
Marcin F. Osuchowski, DVM, PhD, Ludwig Boltzmann Institute, Vienna, Austria

#### 9:25 AM – 9:45 AM
**What Are the “Right” Endpoints in Animal Models of Sepsis?** *(Abstract 1)*  
Clifford Deutschman, MD, Zucker School of Medicine at Hofstra/Northwell, New Hyde Park, NY

#### 9:45 AM – 10:05 AM
**Sepsis Research at the National Institutes of Health** *(Abstract 2)*  
Sarah Dunsmore, PhD, National Institute of General Medical Sciences, NIH, Bethesda, MD

#### 10:05 AM – 10:25 AM
**BARDA's Solving Sepsis Program** *(Abstract 3)*  
Timothy Buchman, MD, PhD, Biomedical Advanced Research and Development Authority, Washington, D. C.

#### 10:25 AM – 10:45 AM
**Clinical Trials: Better Design, More Meaningful Outcomes** *(Abstract 4)*  
Catherine L. Hough, MD, University of Washington, Seattle, WA

#### 10:45 AM – 11:00 AM
**Panel Discussion**

#### 11:00 AM – 11:30 AM
**Refreshment Break**  
*Commodore Foyer*

#### 11:30 AM – 12:30 PM
**KEYNOTE ADDRESS:** Luke O'Neill, PhD

</tr>
</tbody>
</table>
2:45 PM – 3:05 PM  TLR7 Deficiency Attenuated Acute Lung Injury in Polymicrobial Sepsis (Abstract 11)
Lin Zou, MD, PhD, University of Maryland School of Medicine, Baltimore, MD
2017 Faculty Research Award Recipient

3:05 PM – 3:20 PM  Thrombus Site-Selective Delivery of Hydroxychloroquine Using Platelet-Targeted Nanovesicles (PTNs) to Attenuate Thrombus Growth in Deep Venous Thrombosis (DVT) (Abstract 12)
Jurgis Alvikas, MD, University of Pittsburgh, Pittsburgh, PA
2018 Research Investigator Fellowship Recipient

3:20 PM – 3:35 PM  Transplantation of Bone Marrow-Derived Mononuclear Cells Can Attenuate Acute Inflammation and Organ Dysfunction in Rat Heatstroke (Abstract 13)
Yutaka Umemura, MD, Osaka University Graduate School of Medicine, Osaka, Japan
2018 Japan Shock Society Young Investigator Award Winner

3:35 PM – 3:50 PM  A Vortex-Aided Microfluidic Device for a Size-Based Cell Sorting (Abstract 14)
Yuto Takagi, MSc, Mie University Graduate School of Medicine, Tsu-city, Japan
2018 Japan Shock Society Young Investigator Award Winner

3:50 PM – 4:10 PM  Refreshment Break

4:10 PM – 6:00 PM  PARALLEL SESSION I: Innovations in Burn Research
Co-Chairs: Celeste Finnerty, PhD, University of Texas Medical Branch, Galveston, TX
Tina Palmieri, MD, University of California, Davis, Sacramento, CA
Steven E. Wolf, MD, University of Texas Medical Branch, Galveston, TX

4:10 PM – 4:30 PM  Innovations in the Diagnosis and Management of AKI in Burns (Abstract 15)
COL Kevin K. Chung, MD, Uniformed Services University of the Health Sciences, Bethesda, MD

4:30 PM – 4:50 PM  Strategies for Prevention of Sepsis (Abstract 16)
Steven E. Wolf, MD, University of Texas Medical Branch, Galveston, TX

4:50 PM – 5:10 PM  What Is on the Horizon for Dermal and Epidermal Regeneration in Burn Patients (Abstract 17)
Marc Jeschke, MD, PhD, Sunnybrook Research Institute, Toronto, Canada

5:10 PM – 5:30 PM  Advances in Providing Patient-Centered Geriatric Burn Care (Abstract 18)
Herbert Phelan, MD, University of Texas Southwestern Medical Center, Dallas, TX

5:30 PM – 5:45 PM  Beta-Adrenergic Receptor Signaling Modulates Cardiac Mitochondrial Proteins (Abstract 19)
Amina El Ayadi, PhD, University of Texas Medical Branch, Galveston, TX

5:45 PM – 6:00 PM  Systemic IL-6 Trans-Signaling Contributes to Innate Immune Suppression after Burn Injury (Abstract 20)
Devin M. Boe, BA, University of Colorado Denver, Aurora, CO

4:10 PM – 6:00 PM  PARALLEL SESSION II: Neutrophils in Inflammation: Two Sides of the Same Coin
Co-Chairs: Jeyaseelan (Jey) Samithamby, PhD, DVM, Louisiana State University, Baton Rouge, LA
Barbara Sherry, PhD, The Feinstein Institute for Medical Research, Manhasset, NY

4:10 PM – 4:30 PM  CXCL1 Regulates Neutrophil Homeostasis in Pneumonia-Derived Sepsis Caused by Gram-Positive Bacteria (Abstract 21)
Samithamby (Jey) Jeyaseelan, PhD, DVM, Louisiana State University, Baton Rouge, LA
4:30 PM – 4:50 PM  Protein Kinase C-delta Regulation of Neutrophil-Endothelium Interaction under Shear Flow (Abstract 22)
Mohammad Kiani, PhD, Temple University, Philadelphia, PA

4:50 PM – 5:10 PM  In Situ Neutrophil Efferocytosis Shapes T Cell Immunity (Abstract 23)
Minsoo Kim, PhD, University of Rochester, Rochester, NY

5:10 PM – 5:30 PM  Purinergic and Metabolic Regulation of Neutrophil Function (Abstract 24)
Wolfgang Junger, PhD, Harvard Medical School, Boston, MA

Julie Ng, MD, Brigham and Women's Hospital, Boston, MA

5:45 PM – 6:00 PM  The Role of CIRP on NET-Forming ICAM-1+ Neutrophils in Sepsis (Abstract 26)
Monowar Aziz, PhD, Feinstein Institute for Medical Research, Manhasset, NY

6:30 PM – 7:30 PM  Reception
Commodore Foyer

7:30 PM – 10:00 PM  Dinner
New Investigator Awards and Travel Awards Ceremony
Commodore ABCD
Tickets will be collected

MONDAY, JUNE 10, 2019

6:00 AM – 7:00 AM  36th Annual Presidential Fun Run
Runners to meet in hotel lobby at 5:45 AM

7:00 AM – 9:00 AM  CONTINENTAL BREAKFAST & POSTER SESSION II (P45 & P90 – P182)
Constellation AB & Avalon

7:00 AM – 12:45 PM  Registration
Commodore Foyer

7:00 AM – 5:00 PM  Speaker Ready Room
Boardroom

9:00 AM – 10:40 AM  PLENARY SESSION II: Incorporating Microbiome Sciences into Your Thinking, Practice and Research
Co-Chairs: John Alverdy, MD, University of Chicago, Chicago, IL
Susannah E. Nicholson, MD, University of Texas Health Science Center at San Antonio, San Antonio, TX
Commodore ABCD

9:00 AM – 9:25 AM  Shifting Microbiomes during Injury Directly Influence the Host Immune Program, Sepsis-Related Microbiology and Outcome: a Strain-Level Analysis (Abstract 27)
John Alverdy, MD, University of Chicago, Chicago, IL

9:25 AM – 9:50 AM  Shock and the Microbiome (Abstract 28)
Susannah Nicholson, MD, University of Texas Health Science Center at San Antonio, San Antonio, TX

9:50 AM – 10:15 AM  Nutrition and the Microbiome (Abstract 29)
Victoria Gershuni, MD, MSGM, University of Pennsylvania, Philadelphia, PA

10:15 AM – 10:40 AM  Inflamm-Aging and Dysbiosis of the Fecal Microbiome: Multi-Organ System Response after Burn Trauma (Abstract 30)
Elizabeth J. Kovacs, PhD, University of Colorado Denver, Aurora, CO
### MINI SYMPOSIUM I: Novel Therapeutic Targets

Co-Chairs: Laurie Kilpatrick, PhD, Temple University School of Medicine, Philadelphia, PA
Ping Zhang, MD, PhD, Northeast Ohio Medical University, Rootstown, OH

**Commodore ABCD**

### MINI SYMPOSIUM II: Multisystem Trauma And Traumatic Brain Injury (TBI)

Co-Chairs: Michaela A. West MD, PhD, North Memorial Health, Minneapolis, MN
Vanessa Nomellini, MD, PhD University of Cincinnati, Cincinnati, OH

**Commodore E**

**TUESDAY, JUNE 11, 2019**
7:00 AM – 1:00 PM  Speaker Ready Room

7:00 AM – 3:30 PM  Registration

7:00 AM – 9:00 AM  CONTINENTAL BREAKFAST & POSTER SESSION III (P183 – P223, P225 – P276)

9:00 AM – 11:10 AM  PARALLEL SESSION III: Trauma and Resuscitation

9:00 AM – 9:20 AM  Prehospital Tranexamic Acid Improves Survival After Traumatic Brain Injury in Patients with Intracranial Hemorrhage  (Abstract 39)
Martin Schreiber, MD, Oregon Health & Science University, Portland, OR

9:20 AM – 9:40 AM  Tranexamic Acid in Trauma: What Have We Learned?
COL Andrew P. Cap, MD, PhD, US Army Institute of Surgical Research, Fort Sam Houston, TX

9:40 AM – 10:00 AM  Prehospital Plasma Resuscitation of Hemorrhagic Shock in an Urban Ground Ambulance Transport System Does Not Improve Survival: A Pragmatic, Randomized Trial  (Abstract 40)
Ernest E. Moore, MD, University of Colorado Denver, Denver, CO

10:00 AM – 10:20 AM  The Prehospital Air Medical Plasma (PAMPer) Trial: Implications for Traumatic Injury  (Abstract 41)
Jason Sperry, MD, University of Pittsburgh, Pittsburgh, PA

10:20 AM – 10:40 AM  Prehospital Plasma Transfusion Improves Survival in Trauma Patients with Longer Prehospital Transports  (Abstract 42)
Anthony Pusateri, PhD, US Army Institute of Surgical Research, JBSA - Fort Sam Houston, San Antonio, TX

10:40 AM – 10:55 AM  Hemorrhage as Conditioning for Murine Myeloid Progenitor Engraftment  (Abstract 43)
Joshua T. Cohen, MD, Rhode Island Hospital, Providence, RI

10:55 AM – 11:10 AM  In Hospital Treatment with Remote Ischemia Conditioning Alters Early Post-Traumatic Changes in Coagulation in Resuscitated Hemorrhagic Shock Patients  (Abstract 44)
Chung Ho Leung, BSc, University of Toronto, Toronto, Canada

9:00 AM – 11:05 AM  PARALLEL SESSION IV: Precision Medicine in Surgery, Trauma, and Critical Care

9:00 AM – 9:20 AM  Computational and Systems Biology of Trauma: Basic and Translational Insights  (Abstract 45)
Yoram Vodovotz, PhD, University of Pittsburgh, Pittsburgh, PA

9:20 AM – 9:40 AM  Combining Clinical and Biological Variables to Reduce Heterogeneity in ARDS  (Abstract 46)
Michael Matthay, MD, University of California, San Francisco, CA

9:40 AM – 10:00 AM  Use of Precision Medicine to Direct Glucocorticoid Sepsis Therapy  (Abstract 47)
Xiang-An Li, PhD, University of Kentucky, Lexington, KY

| 12:30 PM – 12:45 PM | Evaluation of Innate Immune Cell Reprogramming Using Cargo-less Nanoparticles to Ameliorate Severe Inflammation (Abstract P217) | Jackline Joy Lasola, ScM, University of Maryland School of Pharmacy, Baltimore, MD                                                                                                                     |
| 12:45 PM – 1:00 PM | A Modified Storage Solution Decreases Red Blood Cell Storage Lesion Formation and Inflammatory Response to Resuscitation Following Hemorrhagic Shock (Abstract P156) | Kasiemobi Pulliam, PhD, University of Cincinnati, Cincinnati, OH                                                                                                                                       |
| 1:00 PM – 1:15 PM | Tyrosine Phosphorylation of Caspase-8 Induces Cell Activation through Toll-Like Receptor 4 Dependent Signaling in Septic Neutrophils (Abstract P122) | Sahil Gupta, HBSc, St. Michael's Hospital/ University of Toronto, Toronto, Canada                                                                                                                      |
| 1:15 PM – 1:30 PM | Inhibition of Trem-1 with a Cirp-Derived Peptide Protects Mice from Intestinal Ischemia/Reperfusion Injury (Abstract P241) | Naomi-Liza Denning, MD, Feinstein Institute for Medical Research at Northwell Health, New Hyde Park, NY                                                                                                   |
| 1:30 PM – 3:30 PM | PLENARY SESSION III – Top Submitted Abstracts                           | Co-Chairs: Elizabeth J. Kovacs, PhD, University of Colorado Denver, Aurora, CO  
Marc Jeschke MD, PhD, Sunnybrook Research Institute, Toronto, Canada  
Commodore ABCD                                                                                     |
<p>| 1:30 PM – 1:45 PM | Mitochondrial CX43 and GJA1-20K in Estrogen-Mediated Cardiac Protection Following Acute Ischemia/Reperfusion (Abstract 60) | Meijing Wang, MD, Indiana University School of Medicine, Indianapolis, IN                                                                                                                               |
| 1:45 PM – 2:00 PM | Therapeutic Potential of Natural and Engineered Chemokine (C-X-C Motif Receptor 4 Agonists) in a Combined Lung Ischemia-Reperfusion Injury and Hemorrhage Model of Acute Respiratory Distress Syndrome (Abstract 61) | Favin S. Babu, MD, Loyola University Chicago, Chicago, IL                                                                                                                                                |
| 2:00 PM – 2:15 PM | Human Neutrophil Transcriptomic Changes in Premature Infants Fail to Resolve Despite Reaching Term-Corrected Gestational Age (Abstract 62) | Russell B. Hawkins, MD, University of Florida, Gainesville, FL                                                                                                                                          |
| 2:15 PM – 2:30 PM | Trauma Induces Emergency Hematopoiesis through IL-1 mediated production of G-CSF (Abstract 63) | Isaiah R. Turnbull, MD, PhD, Washington University School of Medicine, St. Louis, MO                                                                                                                |
| 2:30 PM – 2:45 PM | Circulating Cell-Free Nuclear DNA is Associated with Fibrinolytic Shutdown After Injury (Abstract 64) | Matthew E. Kutcher, MD, University of Mississippi Medical Center, Jackson, MS                                                                                                                          |
| 2:45 PM – 3:00 PM | Increased Expression of Adipose-Derived PAI-1 is Associated with Acute Kidney Injury in Murine Models and Septic Patients (Abstract 65) | Beverly K. Balasuriya, PhD, University of Kentucky, Lexington, KY                                                                                                                                     |
| 3:00 PM – 3:15 PM | Modulation of Oxidative and Nitrosative Stress Attenuates Microvascular Hyper-Permeability in Ovine Septic Shock (Abstract 66) | Satoshi Fukuda, MD, University of Texas Medical Branch, Galveston, TX                                                                                                                                    |</p>
